Vintage Air SureFit Gen IV kits are the most complete, bolt-in climate control systems available. All SureFit systems provide full OEM-style operations including air conditioning, floor or vent exit heating and a powerful dehumidified defroster. To retain a true factory look, the A/C air exits through the factory dash louvers, if originally equipped in your vehicles dash.

Complete kits include evaporator unit and mounting brackets, louvers (where required), duct hose, wiring harness, new rotary controls, all under-hood components such as compressor, engine brackets, condenser with brackets, preformed refrigerant lines, drier, fittings, hardware and installation instructions.

Gen IV SureFit Kit Features:

- Fly-By-Wire fully electronic servo motor controls with no cables or capillary tube to route
- Infinite just-right-temperature air blending
- Infinite blower fan speed adjustment
- High-volume dehumidified defrost mode
- Separate high-capacity aluminum plate & fin cooling coil
- Copper/brass CuproBrazed™ parallel-flow heater coil
- Mounts behind the dash
- New rotary controls included
- Flat steel firewall cover panel
- Replacement molded glove box (reduced capacity)

Upgrades Options

08BIM-01-2.....119.95
OBD-II / CAN INTERFACE. The BIM-01-2 OBD-II (J1850/CAN) Interface allows you to plug directly into the engine diagnostic port, extracting engine and transmission data from the vehicle's computer (ECM).

*The BIM-01-2 is designed to decode the information provided by the ECM through OBD -II and supply this information to the **RTX, HDX, VHX and VFD3** systems with a black plastic control module. For any BIM-compatible control boxes which contain the 3.5mm headphone jack BIM input, add part number **394193** adaptor harness. Earlier instrument systems with an aluminum control module are not capable of BIM connectivity

08BIM-01-2-HLLY.....119.95
HOLLEY EFI INTERFACE MODULE The **BIM-01-2-HLLY** is designed to read the engine information from the **Holley Terminator (including X and X Max), HP, Sniper, or Dominator** EFI kits. The BIM-01-2-HLLY module is a direct plug in using the supplied 2 or 4 pin harness for simple connection to the Holley EFI system.

Compatible Dakota Digital instrument system: **VHX, HDX, RTX and VFD3 systems with a black plastic control module. For any BIM-compatible control boxes which contain the 3.5mm headphone jack BIM input, add part number **394193** adaptor harness. Earlier instrument systems with an aluminum control module are not capable of BIM connectivity.

08-DIM KIT.....39.95
Enhance your digital dash by adding this light dimming kit to adjust the dimming feature built into your instrument system for night time driving. This aluminum knob and bezel works only with Dakota Digital instrument systems and will not dim other instrument clusters. ****Stock dimming switches will not work with Dakota Digital Instruments. The **DIM-1** will work with VFD3/RET, VHX, HDX and RTX instrument systems - will not work with the STR series control box, Odyssey or Solarix gauges. The DIM-1 requires a hole measuring .570" in diameter

08-GSS-3000.....UNIVERSAL GEAR SHIFT SENDING UNIT.....129.95

The GSS-3000 is a new generation of gear-shift (detent) position system from Dakota Digital. We've minimized the decoder (the brain of the system), and the new, smaller size with inboard terminals allows for easier installation. Able to be used with a Dakota Digital instrument system or on its own, this versatile unit can relay transmission gear position to a VFD, VHX, HDX or RTX instrument system, as well as the DGS-series of standalone indicators.

- Built-in outputs for reverse lights (up to 15 amps) and neutral safety switch (with supplied 30amp relay).
- Easy setup and calibration.
- User-calibrated for 2-4 forward shifter detent locations, plus Park, Reverse and Neutral.
- Stainless steel and aluminum mounting hardware included for a variety of transmissions.

Includes: Mounting hardware included to fit automatic transmissions including GM TH350, TH400, 700R4, 4L60/70/80, as well as Ford C-4 and C-6. Other transmissions will utilize the included universal mounting bracket.

GSS-3000 supercedes the GSS-1000 and GSS-2000

RETURNS:

We consider all sales final unless the part is either (1) Defective (2) Not the correct part. Refunds are for the cost of the merchandise only and do NOT include shipping and handling charges unless the item sent was incorrect or damaged during shipment.

Parts which installation has been completed or attempted are not returnable. It is the customer's responsibility to check parts for correct fit BEFORE installation.

A part that has been disassembled, drilled, welded, cut, painted, or modified in any way cannot be returned.

Any incomplete kit cannot be returned.

Installation, disassembly or modification done by a third party on behalf of a customer is not an exception to our policy. The purchaser has full responsibility for the condition of the part.

Refunds are made in the same manner in which the payment was received. Credit to your charge card or refund check if you paid by check. Refunds on orders paid by check will be issued after 10 working days from receipt of check. Refunds of less than \$1 will not be refunded without customer request. Item(s) must be received in new or unused condition. Any item returned that is missing parts will not be refunded.

All items being returned MUST use Delivery Confirmation to help assure we receive your package.

The Return Merchandise Authorization (RMA) number must be clearly printed on the outside of your return package.

All returns must have shipping charges prepaid, including duties, customs and special handling charges, where applicable. We recommend that you return your items via UPS for better service and traceability. COD's will NOT be accepted.

On returns due to our error, your shipping expense will be reimbursed based only upon UPS ground charges. If a reship is necessary, we will pay ground shipping charges. Call for return authorization on Truck Freight parts

DO NOT USE A P.O. BOX FOR A SHIPPING ADDRESS

UPS and FEDEX do not deliver to post office boxes and your shipment could be delayed. Currently, we only ship within the contiguous United States.

How shipping charges are determined:

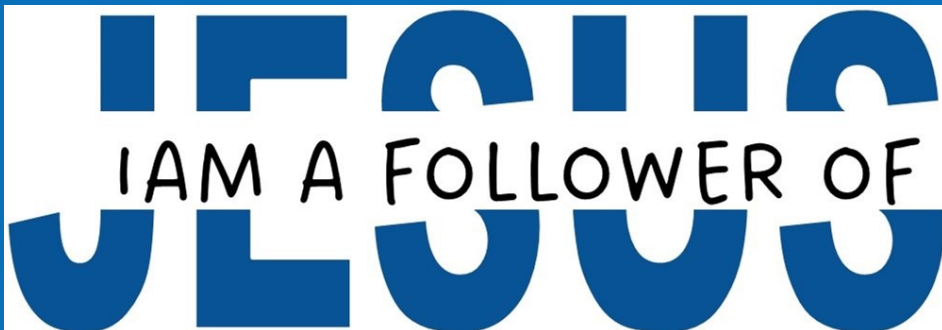

Shipping and handling charges are calculated based on the number of items you order and the shipping method you choose. CPI Truck charges a **minimum \$10.99 shipping charge**.

***All orders are subject to shipping charges verification before being processed.**

- **No free delivery on orders outside the 48 contiguous United States.**
- Orders must ship complete.
- Your responsibilities include additional delivery costs, oversized and overweight charges which will be added to your order.
- You must provide a daytime telephone number with your order. Ten days after the third attempt to contact you, your order will be cancelled.
- We reserve the right to choose the method of shipment
